Kennedy Rebukes Rocky

Boston JUN 17 1975

Senator Edward Kennedy (Dem-Mass.) sharply rebuked Vice President Nelson A. Rockefeller yesterday for his suggeston Sunday that John and Robert Kennedy might have been involved in Central Intelligence Agency assassination plots.

"Such comments come with especially bad grace from the vice president, whose own CIA commisson avoided the question of assassination and passed the buck to Congress," Kennedy said.

"For him now to indulge in these innuendos is utterly irresponsible. Given his own failure to fulfill his duty on the issue, I hope he'll have the decency to maintain his silence now while the Senate investigating committee and others do the job that he should have. done

"Then, I hope that all the information will be made available to the public. The public ought to have an opportunity to examine the materials and make their judgment."
